AMATEUR LINE

MTB cycling shoes that maintain high range characteristics and materials. Renovated model with a triple velcro closure system enabling you to obtain a rigorous fastening without sacrificing comfort. Discover the immortality in the road cycling shoes most resistant of the market thanks to the new microfiber fabric. Carbon fiber sole.

CARBON FIBER SOLE optional

LUCK RED

ECOSYSTEM

LUCK's commitment to sustainability underpins our belief that it is possible to make a difference if each and every one of us puts an effort – however small – into making this planet a better place.

From the optimized management of resources to the recovery of recyclable components, we force ourselves to comply rigorously with European regulations on the manufacture, treatment and management of the raw materials we use.

All the used materials are recycled observing a permanent commitment to the environment and fight against child labour.

LUCK® guarantees the non-minors labour on manufacturing respecting decent labour conditions.
